StoneLux®

Brick Coating

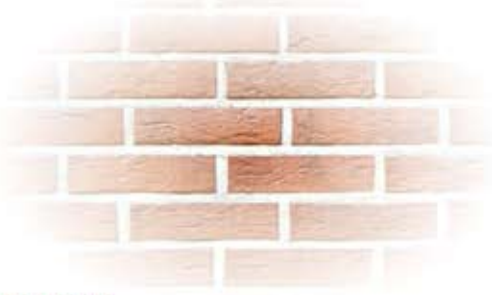

The colour and finish of bricks can vary
dramatically from one foundry to another, and
with many bricks no longer available, matching
new bricks with existing ones can be a difficult
and labourious task. Extending an existing brick
building, or carrying out repair works, will often
result in mis-matched bricks or unappealing
patchy brickwork.

Quality for Less

StoneLux Brick Coating is a water-based, non-toxic, textured brick coating which changes the colour of bricks making it the ideal solution for tying in new brickwork with a building's existing bricks, addressing patchy brickwork, enhancing a building's architectural features or carrying out brick repairs.

- Available in 12 natural brick colours
- Easy to apply & quick drying
- Breathable, flexible & durable
- Suitable for both professional and DIY use
- Excellent coverage
- Ideal for covering graffiti
- Non-toxic & low VOC

Benefits

Authentic

Our unique and exclusive ground stone formulation gives you a truly authentic brick finish which looks and feels like natural bricks.

Durable

Gives a decorative, hard-wearing and weather resistant brick effect .

Quick

Quick drying and easy to apply using either a brush or roller. Simply use straight from the tin.

Cost Effective

A cost effective alternative to replacement bricks. All the benefits without the cost or mess.

Environmentally Friendly

Environmentally friendly. Waterbased. Low VOC, virtually odourless. Simply cleans brushes with water.

Buy Now

All products are available to purchase online at www.charlesproducts.co.uk or by calling us direct on 01405 720281.

Easy to Use

Preparation

To achieve a highly professional finish prepare all surfaces well, remove the flaky and soft parts of the brick with a wire brush making sure they are clean, sound and dry.

Repair any damaged areas with StoneLux Brick Repair Filler.

Brush/Roller Application

Once the area is clean and free from all loose parts, apply the coating of your chosen colour in thin coats building up the layers depending on the original brick variations and making sure you apply to the brick face only, trying to avoid any contact with the mortar joints.

Allow each coat to dry before application of the next.

Before - Graffiti covered wall

After - With the use of StoneLux Brick Coating
